

Easter

Patti Smith Group

[Verse 1]

Ester Sunday we were walking
Easter Sunday we were talking
Isabelle, my little one
Take my hand time has come

[Chorus]

Isabella, all is glowing
Isabella, all is knowing
And my heart, Isabella
And my head, Isabella

[Verse 2]

Frederic and Vitalie
Savior dwells inside of thee
Oh, the path leads to the sun
Brother sister time has come

[Chorus]

Isabella, all is glowing
Isabella, all is knowing
Isabella, we are dying
Isabella, we are rising

[Bridge]

I am the spring the holy ground
I am the seed of mystery
The thorn the veil the face of grace
The brazen image the thief of sleep
The ambassador of dreams
The prince of peace
I am the sword the wound the stain
Scorned transfigured child of Cain
I rend I end I return again
I am the salt the bitter laugh
I am the gas in a womb of light
The evening star the ball of sight
That bleeds that sheds the tears of Christ
Dying and drying as I rise tonight

[Outro]
Isabella, we are rising
Isabella, we are rising
