

LBD

Becky G.

Brrp, brrp Every time you see me with my little black dress on
Oh, you need me
Say you want a freak some, I can see it
You wanna be going, no Rated-PG
Baby, you should know that I ain't easy
With my little black dress on
With my little black dress on
With my little black dress on
Little black dress on I'll save the date like it's your birthday
You tell me you just want a piece of the cake (Birthday cake)
I just might let you get some today (Huh)
'Cause the way you been grinding on me
You got me feeling some type of way
I'm into all these moves
Plus this McQueen, it fits me real tight
I got your hands taking a ride on the wild side
Know what they say about girls from these sides
You wanna risk it all Every time you see me with my little black dress on
Oh, you need me
Say you want a freak some, I can see it
You wanna be going, no Rated-PG
Baby, you should know that I ain't easy
With my little black dress on
With my little black dress on
With my little black dress on
Little black dress on I know you wondering what's under here (yeah, yeah, yeah)
Seen pineapples, just imagine that (yeah, yeah)
Just a dirty little teaser (yeah, yeah, yeah)
Type of love that have you coming back (Hold up)
Plus this McQueen, it fits me real tight
I got your hands taking a ride on the wild side
Know what they say about girls from these sides
You wanna risk it all Every time you see me with my little black dress on
Oh, you need me
Say you want a freak some, I can see it
You wanna be going, no Rated-PG
Baby, you should know that I ain't easy Es mucha tentación, tú puedes ver pero no tocar
Usa tu imaginación, que nunca sabes que va a pasar
Acércate a mí un poquito mas, oh-oh-oh
Si te portas bien te lo voy a dar Every time you see me with my little black dress on
I know you need me
Say you want a freak so vibe this scene

You wanna be going, no Rated-PG
Baby, you should know that I ain't easy
With my little black dress on
(My little black dress on)
With my little black dress on
With my little black dress on
Little black dress on
