

# We Need to Talk

Tayla Parx

[Intro]

Mmm-hmm

[Verse 1]

Damn, I got a lotta questions (Questions)  
Tryna figure your intentions ('Tentions)  
I was just wonderin' if you got some time for me  
'Cause you wouldn't get it in a message, message  
It could be a conversation, yeah  
To fix the situation  
'Cause I don't think it'd be a waste of breath for us  
'Cause maybe we can make it, make it

[Pre-Chorus]

If I called you right now, would you hear me out?  
Or should we do it face to face?  
Your place or my place?

[Chorus]

We, we, we, we need to talk (Yeah, yeah)  
We need to talk (Yeah, yeah)  
Can you think out loud? Use your mouth  
Before the chance is lost  
We, we, we, we need to talk (Yeah, yeah)  
We need to talk (Yeah, yeah)  
Give it one last time to change our mind  
Before we cut it off

[Verse 2]

Let me tell you 'bout my patience (My, my)  
It's thinner than a piece of paper (Fine line)  
It's harder for somebody like me to commit  
I think I need a operator

[Pre-Chorus]

If I called you right now, would you hear me out?  
(Would you hear me out?)  
Or should we do it face to face? (Do it, do it)  
Your place or my place?

[Chorus]

Baby, don't you think we need to talk? (We, we, we)  
(We need to talk, yeah, yeah)  
We need to talk (We need to talk, yeah, yeah)  
Can you think out loud? Use your mouth (Yeah, yeah)  
Before the chance is lost (Yeah)  
We, we, we, we need to talk  
We need to talk  
Give it one last time to change our mind (Yeah)  
Before we cut it off (Yeah, yeah)

[Outro]

We need to talk  
We need to talk
