

# Analogue Players In a Digital World

## Showtek

We are analogue players in a digital world  
Think smart, play it fast, technologies don't last  
From city to city, we live at night  
The grass is always greener on our side  
[4x]  
We are analogue, analogue, analogue, analogue  
We are analogue, analogue, analogue...  
Analogue players in a digital world  
We are analogue players in a digital world  
Think smart, play it fast, technologies don't last  
From city to city, we live at night  
The grass is always greener on our side  
We are analogue players in a digital world  
Think smart, play it fast, technologies don't last  
From city to city, we live at night  
The grass is always greener on our side  
We are analogue players in a digital world  
Think smart, play it fast, technologies don't last  
If reality is wrong, and this is for real  
Then this is how I feel  
How I feel  
And this is how it feels  
We are analogue players in a digital world  
Think smart, play it fast, technologies don't last  
If reality is wrong, and this is for real  
Then this is how I feel  
We are analogue players in a digital world
