

Encore (feat. Ras)

Protohype

Hey kids, let the record spin

Take me to a place I know

'Cus every city in the world I've been

I've taken off before I say hello

Flying thirty thousand feet above my dreams

When they clap their hands you hear them scream

That they only want a little more

This is what they came here for

Encore

(?)

Hey kids, let the record spin

Take me to a place I know

'Cus every city in the world I've been

I've taken off before I say hello

Flying thirty thousand feet above my dreams

When they clap their hands you hear them scream

That they only want a little more

This is what they came here for
