

I Can See It In Your Face

Pretty Lights

You (x5)

I can see it in your face

Oh you've been hurt

By someone else

I can tell by the way

You carry yourself

I can see it in your face

Come on

...

Come on

...

Come on

...

I know you've been hurt

By someone else

I can tell by the way

You carry yourself

I can see it in your face
