

# She Made My Day

Willie Nelson

Well she made my day  
But it ruined my life  
She smiled at me  
And I did not think twice  
Well I dove right in  
Into a world of strife  
Well she made my day  
But it ruined my life I was mindin' my own business, a-buzzin' 'round  
My mind spinnin' faster than the speed of sound  
And I was perfectly happy when I ran into her  
But she complicated me and the way things were  
Well she made my day  
But it ruined my life  
She smiled at me  
And I did not think twice  
Well I dove right in  
Into a world of strife  
Well she made my day  
But it ruined my life We were gettin' along just fine, just me and me  
We understood each other perfectly  
Then I let my guard down and there she was  
Well that's stupid is as stupid does  
Well she made my day  
But it ruined my life  
She smiled at me  
And I did not think twice  
Well I dove right in  
Into a world of strife  
Well she made my day  
But it ruined my life She smiled at me  
And I did not think twice  
Well she made my day  
But it ruined my life
