

# Very Last Moment In Time

[Lindsay Lohan](#)

Time stops for no one and moves on unaware  
It's easy not to notice, it's easy not to care  
Conversation circles, there's money changin' hands  
I've been standin' in the middle, I've been caught up in the spin  
Out of the confusion, the static  
and the noise  
You got my attention, it made me wanna  
Live like it's the last moon rise and  
Scream just like no one's there, lose all of my defenses  
Hold you, touch you, love you like it's  
A very last moment in time  
It seems like I woke up beneath a different sky  
And I'm drunk' I want I'm seein' through these open eyes  
All the little ways you move me, all the places you expose  
The illusion I held on to, you've got me lettin' go  
Fallin' out around me watch the world away  
Live like it's the last moon rise and  
Scream just like no one's there, lose all of my defenses  
Hold you, touch you, love you like it's  
A very last moment in time  
Let me feel you next to me, let me taste the breath you breathe  
Open up the space between us  
Live like it's the last moon rise and  
Scream just like no one's there, lose all of my defenses  
Hold you, touch you, love you like it's  
A very last moment in time  
Live like it's the last moon rise and  
Scream just like no one's there, lose all of my defenses  
Hold you, touch you, love you like it's  
A very last moment in time
