

Raincheck

Tin Star

It's a beautiful house and I love the garden
But I just can't stay 'til my arteries harden
Out in the street the people are stranded
It didn't turn out the way they planned it

Another step closer to St. Peter
They measure each step in millimetres
They say I ought to go now
But I think I'll take a raincheck

When the orange is fully wound
I still have time to go to ground
To go get lost before I get found
I still have time

I watched television 'til I got the message
That we're quickstepping headlong into the dark age
Can't get a career can't go to college

Another step closer to St. Peter
They measure each step in millimetres
They say I ought to go now
But I think I'll take a raincheck

When the orange is fully wound
I still have time to go to ground
To go get lost before I get found
I still have time

They say I ought to go now
But I think I'll take a raincheck

When the orange is fully wound
I still have time to go to ground
To go get lost before I get found

I still have time
