

I Wish You'd Met Her

Trashcan Sinatras

I wish you'd met her, you know
Couldn't forget her, you know
I've had the pleasure to know
I wish you'd met her

I think you'd like her, you know
You think just like her, you know
And I found a treasure, you know
I wish you'd met her

Every morning I wake
Every day that I break
I'm glad I'm alive today
She's the warmth in the rays
And she comes in waves
Rippling time and colouring days

I wish you'd met her

I put some things behind me, you know
I close the door quietly, you know
Now I'm good under pressure, you know
I wish you'd met her

Every morning I wake
Every day that I break
I'm glad I'm alive today
She's the warmth in the rays
And she comes in waves
Rippling time and colouring days

Every morning I wake
Every day that I break
I'm glad i'm alive today
She's the warmth in the rays
And she comes in waves
Rippling time and colouring days

I wish you'd met her

I wish you'd met her
