

# Better Times

[Evan Olson](#)

I'm looking out for a shooting star right now  
To make a wish for a falling heart somehow

I dream of the better times you came around  
I'm wishing on a shooting star right now  
And I dream of the better times you came around  
I know they're not that far

I'm waiting up for the sacred moment now  
I know the fall of it eases the pain somehow

And I dream of the better times you came around  
I'm wishing on a shooting star right now  
And I dream of the better times you came around  
I know they're not that far
