

# Send It Out to the Universe

Samantha James

When your life goes round in circles  
Feel lost in time  
You keep searching for the answer  
Which you never find  
You've been holding on for too long  
Letting life pass you by  
Give it up, surrender  
Let it go this time

Chorus

Sent it out to the universe  
Let it fly away  
Hey Hey Hey  
Sent it out to the universe  
Whatever's meant to be, will be  
Yeah~yeah

(2 x)

Just have faith  
In things you can see  
Open your heart  
There's no better feelin' than to be free  
Right where you are  
Everything that you need  
The world will provide  
Listen hear your calling  
It's louder than your own mind

Back to chorus 2x

Bridge

Sent it out to the universe  
Let it fly away  
Sent it out to the universe  
Whatever's meant to be, will be...
