

# 3030

## Deltron 3030

Yo, it's 3030, I want y'all to meet Deltron Zero  
Hero, not no small feat, it's all heat in this day and age  
I rage your grave, anything it takes to save the day  
Neuromancer, perfect blend of technology and magic  
Use my rapping so you all could see the hazards  
Plus entertainment where many are brainless  
We cultivated the lost art of study and I brought a buddy  
Automator harder slayer fascinating combinations  
Cyber warlords are activating abominations  
Arm a nation with hatred we ain't with that  
We high-tech archaeologists searching for knickknacks  
Composing musical stimpacks that impacts the song  
Crack the motor what you think you rapping for?  
I used to be a mech soldier but I didn't respect orders  
I had to step forward, tell them this ain't for us  
Living in a post-apocalyptic world morbid and horrid  
The secrets of the past they hoarded  
Now we just boarded on a futuristic spacecraft  
No mistakes black it's our music we must take back  
Yo, it's 3030 I want y'all to meet Deltron Zero and Automator  
Yo, it's 3030, I want y'all to meet  
Deltron Zero and Automator  
Yo, it's 3030, I want y'all to meet  
Deltron Zero and Automator  
Del, I'm feeling like a ghost in a shell  
I wrote this in jail playing host to a cell  
For the pure verbal, they said my sentence was equivalent to murder  
Kust another hurdle, I bounced through a portal  
I knew they had the mind state of mere mortals  
My ears morphed to receptors to catch ya  
Every word about gravity control  
And the families they hold for handsome ransoms  
On the run with a handgun, blast bioforms, I am warned  
That a planet-wise manhunt with cannons  
Will make me, abandon, my foolish plan of uprising  
Fuck dying, I hijack a mech  
Controlling with my magical chance so battle advance  
Through centuries of hip-hop legacy, mega speed  
Hyper warp to Automator's crib and light the torch  
They can't fight the force  
Victory is ours once we strike the source  
Enterprising wise men look to the horizon  
Thinking more capitalism is the wisdom  
And imprison, all citizens empowered with rhythm  
We keep the funk alive by talking with idioms  
Yo, it's 3030, I want y'all to meet  
Deltron Zero and Automator

Yo, it's 3030, I want y'all to meet  
Deltron Zero and AutomatorYo, it's 3030, I want y'all to meet  
Deltron Zero and Automator  
Isn't eternal evil concerned with thievery  
Medieval prehistoric rhetoric well we ahead of thatLay it down with sound waves that pound  
pavement  
Original minstrels my central processing unit  
Is in tune with my heart for this art  
Not artificial 'cause that makes it hard to miss youCopycats finish last in the human race  
Staying glued to safes too prude to take a buddah break  
We got espers that let us bless with fresh shit  
Undetected by yes men questing for five fleeting nanoseconds of fameProtecting the brain from  
conspiracies against my cosmos  
While I float to Neo-Tokyo with Opio  
Or discuss combustible rust clusters with Plus  
Evade cyber police in a computer crib confuse the kidsBut I can make a kicking rhymes thats  
sacred  
Telepathic mind that takes its greatness from the Matrix  
Esper rhyme professor rushes in ultra pressures  
With correction measuresWhy half the world's a desert  
Cannibals eat human brains for dessert  
Buried under deap dirt, mobility inert  
I insert these codes for the cataclysmEver since I had the vision use my magnetism  
In this modern metropolis they tries to lock us up  
Under preposterous laws thats not for us  
Yo, it's 3030, I want y'all to meet  
Deltron Zero and AutomatorYo, it's 3030, I want y'all to meet  
Deltron Zero and Automator  
Yo, it's 3030, I want y'all to meet  
Deltron Zero and Automator
