

Osmun Place

Paul Russell

[Chorus]

God, just take me over
I'm losing my mind on Osmun Place
I drive to the ocean
You said we could be there face to face

[Verse]

You say holler at your boy from the hard west
Second-hand smoke from a car hood
I'm learning what's good on a bad day
Now all bad days feel all good
And I've been looking for a job all week tho
Bad shots like Shaq on free throws, you think he shouldn't
Go left on the east coast while good friends still forget you like CeeLo
But we know we know success is placebo
Denying myself, went from crutching to credo
And I got a ego as big as Toledo but God hit the veto
So I'm wit amigos in upstate
Sneakers and funfetti cupcakes
What's the name, drunk on a Monday?
Rapping my song at the subway
Yeah, eat fresh, say
I'm not home, I got next

[Refrain]

And I'm not mad, I'm just stressed
The next note is, on my chest
This SOS, on my breath
'Cause I ain't much
Take me and all my junk, we know
We already done did enough this year
Just let me send this up and I'll be on that love

[Chorus]

God, just take me over
I'm losing my mind on Osmun Place
I drive to the ocean
You said we could be there face to face
God, just take me over
I'm losing my mind on Osmun Place

And I drive to the ocean
You said we could be there face to face

[Bridge]

I been at the sunset, homie where you at?
God put it down and He told me where we at
Told me I'm His son now, He ain't take it back

Guess I need to let [?]

I been at the sunset, homie where you at?
God put it down and He told me where we at
Told me I'm His son now, He ain't take it back

Guess I need to let [?]

[Refrain]

I'm not home, I got next
And I'm not mad, I'm just stressed
The next note is, on my chest
This SOS, on my breath
'Cause I'm not home, I got next
And I'm not mad, I'm just stressed
The next note is, on my chest
This SOS, on my breath

[Chorus]

God, just take me over
I'm losing my mind on Osmun Place
I drive to the ocean
You said we could be there face to face
God, just take me over
I'm losing my mind on Osmun Place
I drive to the ocean
You said we could be there face to face
