

Empty My Hands

Tenth Avenue North

[Verse 1]

I've got voices in my head and they are so strong
And I'm getting sick of this oh Lord, how long
Will I be haunted by the fear that I believe
My hands like locks on cages
Of these dreams I can't set free

But if I let these dreams die
If I lay down all my wounded pride
If I let these dreams die
Will I find that letting go lets me come alive

[Chorus]

So empty my hands
Fill up my heart
Capture my mind with you
(x2)

[Verse 2]

These voices speak instead. what's right is wrong
And I'm giving into them, please Lord, how long
Will I be held captive by the lies that I believe
My heart's in constant chaos and it keeps me so deceived

But if I let these dreams die
If I could just lay down my dark desire
If I let these dreams die
Will I find you brought me back to life

[Chorus]

(x2)

[Bridge]

Cause my mind is like a building burning down
I need your grace to keep me, keep me from the ground
And my heart is just a prisoner of war
A slave to what it wants and to what I'm fighting for

[Chorus]

(x2)

With you
I need you now
