

What You Said

Color Theory

What you said was too rude to repeat
What you said made me squirm in my seat
What you said was a showcase of wit
What you said was a box office hit

So you think that you're above me
Well you're obviously high
So you think that you can snub me
Look me right in the eye
Uh oh bang bang you're dead
Shame you said what you said

What you said dragged my name through the mud
What you said left me thirsty for blood
What you said in your head
Maybe seemed innocent to you
But instead what you said hurt
Even more because it was true

So you think that you're above me
You've forgotten your place
So you think that you can snub me
Say the words to my face
Uh oh bang bang you're dead
Shame you said what you said

So you think that you're above me
Don't get carried away
So you think that you can snub me
Better watch what you say
Uh oh bang bang you're dead
Shame you said what you said
