

# Impose My Will

## Havoc & The Alchemist

[Intro]

Come here, come here, come here, come here...turn the lights off

[Verse 1: Havoc]

I'm in your mind like a foul thought  
Nigga think this shit is funny wipe his smile off  
Think you're getting yours but it's bitter sweet  
Man down, now your family gotta pick a reef  
Realer than it's ever been, police on my social site  
We don't talk on the horn, niggas snitching over mics  
You can say I'm paranoid, I don't give a fuck though  
I don't trust a motherfucker, everybody cut throat  
Why I survive longer? I don't move this anyway  
Stealth mode, handle wise, regulate  
Shit we been doing, we don't leave shit looming  
We better at, you know my shit is always improving  
On all levels, torment you to [?] you  
We ain't them niggas, nah you don't wanna test [?]  
So get it out your mind, that's a no brainer  
Fuck the love, it's the fear that make 'em obey you

[Hook: Havoc]

All that tough shit is in your mind  
Niggas pussy so they fall in line  
Where your heart? It was never there  
No remorse for them niggas I don't shed a tear  
So long live a real nigga  
I'm that nigga that kept it real with'cha  
Yep, and always will  
From day one, all day, nigga  
Impose my will

[Verse 2: Havoc]

On it, you know we really on it  
You can pick your friends but not the life that you was born in  
Up early morning, I'm on my bread shit

As I get head for breakfast  
Make moves we break rules I'm over y'all  
We on our grind that second nature is protocol  
Take notes, sit back let, a pro perform  
You niggas sleeping like y'all been shootin' propofol  
Keep sleeping, we out here and wide awake  
Heads getting knocked off of shoulders they can't find a face  
Niggas hating, hope the feds got a case  
Catch a case you know we fight it with a lot of cake  
That's how we do, that's how we do  
My homie passed her off that's an alley-oop  
You didn't know this was the winner team  
H-A-V, A-L-C and we big

[Hook: Havoc]

All that tough shit is in your mind  
Niggas pussy so they fall in line  
Where your heart? It was never there  
No remorse for them niggas I don't shed a tear  
So long live a real nigga  
I'm that nigga that kept it real with'cha  
Yep, and always will  
From day one, all day, nigga  
Impose my will
