Violence

[Primer 55](#)

I've got the mood set half past midnight
Me and my soldiers are dancin' in the street lights
Set them up set them up buck I watch them fall quick
Sound the alarms I'm droppin' bombs with this dope shit
What go around come around that's what they all say
No time to blink no time to think no time to hesitate
You got no gun it's best you run unless you got one
They bring pain like rain with a shotgunDon't bring that shit to me
Don't bring that shit to me
Don't bring that shit to me
Don't bring that shit
[inaudible] take it off
Like a snake I'm the most wanted viper
Bustin' on punks like the neighborhood sniper
Right from wrong I just can't decipher
Strapped with a Mack and an automatic rifle
The ten most wanted I'm on top of the pile
Rainin' down on punks penitentiary style
No respect for life no respect for the outcome
If you want some, bitch come get someDon't bring that shit to me
Don't bring that shit to me
Don't bring that shit to me
Don't bring that shitDon't bring that shit to me
Don't bring that shit to me
Don't bring that shit to me
Don't bring
