

Heartache

Noosa

Turn around I'm showing you these signs
I've been wanting to get back in line
Cause I wanna go, go back in time
Take me back when it was you and I
Laughing loving in the summer time
I wanna know, will hearts align
Cause you know that I know you'd take a bullet for my heart
Even though it was over before we ever said
Before we said goodbye
We can keep it going my way
But I know that you know ill be your heartache
Got no rhythm but we stayed it time
Fires burning we put out the lights
Cause I wanna go, go back in time
You don't wanna say our love is strong
No one knows it but I'm holding on
And I wanna know will hearts align
Cause you know that I know you'd take a bullet for my heart
Even though it was over before we ever said
Before we said goodbye
We can keep it going my way
But I know that you know ill be your heartache
Take me away
I'll be your heartache
Take me away
I'll be your heartache
Take me away
I'll be your heartache
We can keep it going my way
But I know that you know ill be your heartache
