

# Surrender

Blake Lewis

I'd see you in a crowd  
A million people out  
You try hide, but something made you call out  
I got you fallin hard  
You make me drop my guard  
We try to fight it  
But something's written in the stars I just can't shake this feeling  
It's just like a bullet  
And it's killing, killing me  
Two hearts that needs some healing  
Don't know what you do to, do to me  
It's time to surrender  
Cuz I can't remember  
A love that was strong enough  
To not to run away, yeah  
It's time to surrender  
I'm giving in to ya  
You're giving in to me  
So give it away, yeah Everybody needs somebody  
Reaching out so take it from me  
Everybody, take this from me  
Find the one surrender  
Give it away  
It's like in another life  
I swear I've known you twice  
If this is destiny  
Time for us to roll the dice  
Your heart was novocaine  
Caught up to numb the pain  
You took me in and nothing's ever been the same I just can't shake this feeling  
It's just like a bullet  
And it's killing, killing me  
Two hearts that needs some healing  
Don't know what you do to, do to me It's time to surrender  
Cuz I can't remember  
A love that was strong enough  
To not to run away, yeah  
It's time to surrender  
I'm giving in to ya  
You're giving in to me  
So give it away, yeah I'd see you in a crowd  
A million people out

You try hide, but something made you call out  
I got you fallin hard  
You make me drop my guard  
We try to fight it  
But something's written in the stars I just can't shake this feeling  
It's just like a bullet  
And it's killing, killing me  
Two hearts that needs some healing  
Don't know what you do to, do to me It's time to surrender  
Cuz I can't remember  
A love that was strong enough  
To not to run away, yeah  
It's time to surrender  
I'm giving in to ya  
You're giving in to me  
So give it away, yeah Everybody needs somebody  
Reaching out so take it from me  
Everybody, take this from me  
Find the one surrender  
Give it away It's like in another life  
I swear I've known you twice  
If this is destiny  
Time for us to roll the dice  
Your heart was novocaine  
Caught up to numb the pain  
You took me in and nothing's ever been the same I just can't shake this feeling  
It's just like a bullet  
And it's killing, killing me  
Two hearts that needs some healing  
Don't know what you do to, do to me It's time to surrender  
Cuz I can't remember  
A love that was strong enough  
To not to run away, yeah  
It's time to surrender  
I'm giving in to ya  
You're giving in to me  
So give it away, yeah Everybody needs somebody  
Reaching out so take it from me  
Everybody, take this from me  
Find the one surrender  
Give it away Over me, something's coming over me  
There's no telling what will be  
But something's coming over me (Over me, something's coming over me)  
I give it up cuz I know that if I give in  
There's a chance you'll be... ...certain (?)  
(There's no telling what will be)  
I finally found someone that I believe in  
(But something's coming over me) It's time to surrender  
Cuz I can't remember

A love that was strong enough  
To not to run away, yeah  
It's time to surrender  
I'm giving in to ya  
You're giving in to me  
So give it away, yeahEverybody needs somebody  
Reaching out so take it from me  
Everybody, take this from me  
Find the one surrender  
Give it away  
SurrenderEverybody needs somebody  
Reaching out so take it from me  
Everybody, take this from me  
Find the one surrender  
Give it awayOver me, something's coming over me  
There's no telling what will be  
But something's coming over me(Over me, something's coming over me)  
I give it up cuz I know that if I give in  
There's a chance you'll be... ..certain (?)  
(There's no telling what will be)  
I finally found someone that I believe in  
(But something's coming over me)It's time to surrender  
Cuz I can't remember  
A love that was strong enough  
To not to run away, yeah  
It's time to surrender  
I'm giving in to ya  
You're giving in to me  
So give it away, yeahEverybody needs somebody  
Reaching out so take it from me  
Everybody, take this from me  
Find the one surrender  
Give it away  
Surrender
