

# Spit It Out

## Aesthetic Perfection

Hey you, this is for you all  
You've given me the sense to be  
Thank you, thank you  
This is my chance  
No heart, nobody, no class  
Believe me when I say  
Success will cost integrity  
Disarming, repeating  
Seduce you with mediocrity

Hey you, hey you, let's hear you scream  
I'll spoonfeed you my imagery  
I need you, I need you to spit it out  
I'll be what everyone talks about  
Believe me, you've saved me  
The effort of being myself  
Compel me, subdue me  
This time we won't be going back

I want to hear you scream  
2x)Spit it out  
Scream, spit it out  
Scream, spit it out  
Scream, spit it out

I want to hear you

I want to hear you scream  
2x)Spit it out  
Scream, spit it out  
Scream, spit it out  
Scream, spit it out

I want to hear you

Why don't you spit it out?  
Why don't you spit it out?  
Why don't you spit it out?  
Why don't you spit it out?  
Don't hold it in

Spit it out

I want to hear you scream

2x)Spit it out

Scream, spit it out

Scream, spit it out

Scream, spit it out

I want to hear you

I want to hear you scream

2x)Spit it out

Scream, spit it out

Scream, spit it out

Scream, spit it out

I want to hear you
