

Brand New Numb

Motionless In White

[Intro]

("I'm tryna fuckin' record this")

("Sorry")

[Verse 1]

I've got a shotgun tongue

And tick like a time bomb

All black everything

I've got a switchblade wit

That cuts like a bitch

And I think you two should meet

[Pre-Chorus]

I wanna break free from my humanity

I wanna release the animal in me

B-b-b-break free your curiosity

You're gonna give me what I need

[Chorus]

I've got blood on my hands, no guilt on my conscience

The war in your path, the sex in your violence

All of my flaws, I wear 'em with honor

A purple heartbreak for all we've suffered

[Post-Chorus]

I am the enemy

I am the enemy

I am the enemy

(Here to save the day)

I'll be the enemy

E-e-e-enemy

I'll be the enemy

Enemy, enemy

[Refrain]

I got a brand new

I got a brand new

I got a brand new

Brand new numb

[Verse 2]

I'm in your blind spot
God while I get your rocks off
Worship to the beat
I wanna thank you, come again
That was great, do you need a receipt?

[Pre-Chorus]

I wanna break free from my humanity
I wanna release the darker side of me
B-b-b-break free your curiosity
You're gonna give me what I need

[Chorus]

Yeah, I've still got blood on my hands, no guilt on my conscience
The war in your path, the sex in your violence
All of my flaws, I wear 'em with honor
A purple heartbreak for all we've suffered

[Post-Chorus]

I am the enemy
I am the enemy
I am the enemy
Here to save the day
I'll be the enemy
E-e-e-enemy
I'll be the enemy
Enemy, enemy

[Refrain]

I got a brand new
I got a brand new
I got a brand new
Brand new numb
I got a brand new
I got a brand new
I got a brand new
Brand new numb

[Bridge]

Give me liberty or death
Charge me more and pay me less
I said give me liberty or death
Ah, fuck it, just give me death
Let's go!
Yeah!
This one's for the underdogs

[Chorus]

I've got blood on my hands, no guilt on my conscience
The war in your path, your mind is the target
All of my flaws, I wear 'em with honor
A purple heartbreak for all we've suffered

[Post-Chorus]
I am the enemy
I am the enemy
I am the enemy
(Brand new numb)
I'll be the enemy
E-e-e-enemy
I'll be the enemy
Brand new numb
