

Happy Birthday (Interlude)

Tayla Parx

[Verse]

It's your birthday, it's your birthday
Tell me what we doing later, happy birthday
I bet a hundred dollar bill that I can make you feel
Like you just popped a pill on your birthday
It's your birthday, it's your birthday
Tell me what you wish for in the worst way
What you make a list for in the first place?
Happy birthday (Happy birthday)
