

For the One You Love (feat. Natalie Gioia)

Roger Shah & Ram

Run away or just stay
You can't deceive past days
Happiness is a moment
No need to be spoken Let your feelings go
Let your feelings go
Like you don't
Usually allow Because
You wanna be loved
Turn everything around
Like for the love
To let the whole
Forgotten sweet memories
To be found So live
For the one
You love... So live
For the one
You love...
So live
For the one
You love So live For
The one
You love
