## ILYA

We go for a walk, a long walk to nowhere  
Search for answers, can't even find ourselves

We go for a walk, a long walk to nowhere  
Search for answers, can't even find ourselves

Time sifts through my fingers, we blend into one  
Time sifts through my fingers, we blend into one

We go for a walk, a long walk to nowhere  
Search for answers, can't even find ourselves

I go for a walk, alone though with guidance  
Search for answers, in you I find myself

Will you listen at all  
Will you listen at all

In my tomb will I live  
I don't fear  
In my

And your free will it kills me  
And it steals from you  
Though you don't see it

Will you listen at all  
Will you listen at all
