

Not Enough

Carousel

Top stone, what were you hoping?
Was here is this town I found what you want
And right now, I'm thinking what I wanna do?
What you wanna do?

Is alright, you're thinkin' you couldn't
But you could. Is unlike you
Look what we found tonight
And right now, I'm thinking what I wanna do?
What you wanna do?

This is not enough
I can't get enough
This is not enough
When you fall you can pick me

You're alright, I feel like I'm changing
Look with both eyes
You couldn't hide it
In this town
I feel the way that I wanna feel

But don't hold out now
Don't hold out
But don't hold out now
Don't hold out

This is not enough
I can't get enough
This is not enough
When you fall you can pick me

(This is not enough
This is not enough)

This is not enough
I can't get enough
This is not enough
When you fall you can pick me

This is not enough
I can't get enough
This is not enough
When you fall you can pick me
