[Verse 2]

Tuck in my wallet they been pocket watching Ron ain't got no choice
Like he just ran out of options Oh Check my stats Plays match all my acts
It's all facts On a dash For God take it back I Can't subtract Turn that dial
Turn dial Been running up the miles Like a stallion Push the push the scale
I need balance Ron ain't got no sense I done lost it All mercy from the most high
Reflecting greatness Like it's both sides Bad vibes Got a lot of them I live dead
But I'll never die I been way way late Way too much at stake This why I ache
I been running base From the bat I got scripted So I act I invented this
Money ain't my mask On my last I don't need to trip I'll say on my own sake
Proof at all may Cause my own demise Say this on more time
For y'all I do not live my life And So
Y'all need the facts and the proof

[Hook]

So you need facts and the proof what I got do for you issa wrap
Let me loose I ain't been the same since I found out I been stuck in my ways too
