

I Wish You Were Here

[John Creamer & Stephane K](#)

I walked home the other day... and saw your face...
appearing, disappearing, & reappearing in my mind..
and I wish you'd just stay...
chasing memories of you... your eyes, your face, your
lips...
the way you used to move across the floor...
I've traced your footprints...
what would it be like if you were here...

I wish you knew how much I wished that you were here with
me...
I wish you were here...

I wonder if you know how much I think about you...
I wonder if you know how much you pass my mind...
I think I miss you...
