

Best Days on Earth

Trashcan Sinatras

[Verse 1]

Out of the dark came the light
Turning the stars and diary pages
I'll tear out the day our stars aligned
And I'll fold it away for the ages
Delicate, orgasmic time
We can unfold it, when we get old, it
Was one of my best days on earth

[Chorus]

One of my best days on earth
One of my best days on earth
One of my best days on earth
One of my best days on earth
One of my best days on earth
One of my best days on earth
When I sat alight of you

[Verse 2]

Danny was smiling down on June
Billy was smiling down on Betty
Didn't the sun shine on my friends
Didn't it rain colored confetti?
Oh the heart is designed
To run out of time
There's no pause or rewind
The transmission's live

[Chorus]

It's one of my best days on earth
One of my best days on earth
One of my best days on earth
One of my best days on earth
One of my best days on earth
One of my best days on earth
It's one of my

It's one of my best days on earth
One of my best days on earth

One of my best days on earth
