

Gimme Your Love

Morcheeba

Close the door
Turn the light off
Switch your mind off
Make it right for me
Pull the blind door
Try to wind down
Take the liberty And then you'll see
Our love's here to last
Make it right for me
And then you'll see
Our love's here to last We're gonna feel alive
Come and gimme your love
Gimme your love
We're gonna feel alive
Come and gimme your love Come on back for more
Take your time now
Or do it right now
Make this night for me
And if we like it
We won't fight it
Take the liberty
And then you'll see
Our loves here to last
Make it right for me
And then you'll see
Our loves here to last We're gonna feel alive
Come and gimme your love
Gimme your love
Whoa
Say it all
Play it all
Give it all
Get it all
Whoa
Sway whit me
Play with me
Stay with me
Lay with me
Whoa
Say it all
Play it all
Give it all

Get it all
WhoaCome feel the love
Feel my love
My love
My love
My love
