

# Bless You

## Tony Orlando & Dawn

Every time I faced the world  
I just had to cry  
I stood alone with no love of my own  
But then you happened by Oh, darling, bless you  
Bless every breath that you take  
Yeah, bless every move that you make so perfectly  
And bless your little heart for loving me  
Oh, bless you, bless you, child  
'Til you smiled and took my hand  
I felt kinda small  
But you stood by me for the whole world to see  
And then I was ten feet tall Oh, darling, bless you  
Bless every breath that you take  
Mmm, bless every move that you make so perfectly  
And bless your little heart for loving me Oh, darling, bless you  
Bless every breath that you take  
Baby, bless every move that you make so perfectly  
And bless your little heart for loving me  
Baby, bless you  
Bless every breath that you take  
Yeah, bless every move that you make so perfectly  
And bless your little heart for loving me
