

Be Without You

KStewart

[Verse 1]

Boy, when you call my name
I can't help the feeling
You know just how to blow my mind
You make my heart be racing a thousand times a minute, yeah
For you, I'll always found the time

[Pre-Chorus]

And I, I, I love when you're next to me
And I, I, I still find it hard to breathe
And I, I, I know that we're meant to be
We're outta time and the feeling's right
You can make me come alive

[Chorus]

Boy, you've got that kinda love
I don't wanna be without you
I just can't get enough
Lose myself when I'm around you
So, come on, give me more
Give it to me, I'm yours
The time is now, give me that kinda love
Makes me never wanna be without you

[Verse 2]

Boy, when you touch me
I just can't help but love it
It sends a shiver down my spine
You take me high and I can't even rise above it
Baby, I want to call you mine

[Pre-Chorus]

I, I, I love when you're next to me
And I, I, I still find it hard to breathe
And I, I, I know that we're meant to be
We're outta time and the feeling's right
You can make me come alive

[Chorus]

Boy, you've got that kinda love

I don't wanna be without you
I just can't get enough
Lose myself when I'm around you
So, come on, give me more
Give it to me, I'm yours
The time is now, give me that kinda love
Makes me never wanna be without you
Boy, you've got that kinda love
I don't wanna be without you
I just can't get enough
Lose myself when I'm around you
So, come on, give me more
Give it to me, I'm yours
The time is now, give me that kinda love
Makes me never wanna be without you

[Bridge]

Baby, is it way you hold me tight?
That leaves me running out of ways to describe
Lead the way, I'm yours for life
So come over and show me
Why I can't be without you tonight

[Chorus]

Boy, you've got that kinda love
I don't wanna be without you
I just can't get enough
Lose myself when I'm around you
So, come on, give me more
Give it to me, I'm yours
The time is now, give me that kinda love
Makes me never wanna be without you
Boy, you've got that kinda love
I don't wanna be without you
I just can't get enough
Lose myself when I'm around you
So, come on, give me more
Give it to me, I'm yours
The time is now, give me that kinda love
Makes me never wanna be without you
