

# Waves of Nature

## Willow

[Verse 1]

I know you've been cutting ties, you've been telling lies  
I know you don't know the time, it's all up in your mind  
But I can't get with it, no  
I can't get with it, no  
Won't get a whiff of that sickness

[Chorus]

You say you wanna fly, that's alright  
Gotta buckle up, better hold on tight  
Gotta get in your right side of mind  
Get in your right side of mind  
If you're tryna fly  
Better hold on, hold on tight  
Get in your right side of mind  
Get in your right side of mind  
If you're tryna fly

[Verse 2]

Human spend so much time tryna figure out life  
Tryin' to classify wrong and right  
Better hold on, hold on, tight  
It's gonna be a bumpy ride, it's gonna be a bumpy ride  
Full of lies and pasttimes  
Full of lights and endless nights  
You don't feel your merkabah spin  
Just try again and again, just try and again like  
I try again and again  
I try again and again  
I try again and again  
I try again and again

[Chorus]

You say you wanna fly, that's alright  
Gotta buckle up, better hold on tight  
Gotta get in your right side of mind  
Get in your right side of mind  
If you're tryna fly  
Better hold on, hold on tight  
Get in your right side of mind

Get in your right side of mind  
If you're tryna fly

[Bridge]

Circles, circles, ellipses  
Trees and flowers, breeze and grass and laughs  
She's drawing  
Circles, circles, ellipses  
Trees and flowers, breeze and grass and laughs  
Straight lines, he's running out of time  
Trying to get from A to B, from he to she  
Straight lines, he's running out of time  
Trying to get from A to B to eternity

[Chorus]

You say you wanna fly, that's alright  
Gotta buckle up, better hold on tight  
Gotta get in your right side of mind  
Get in your right side of mind  
If you're tryna fly  
Better hold on, hold on tight  
Get in your right side of mind  
Get in your right side of mind  
If you're tryna fly

[Outro]

Get in your right side  
If you're tryna fly, tell me, tell me if you're tryna fly  
To your right side of mind  
To your right side of mind  
To your right side of mind
