

He Won't Ever Be Gone

Willie Nelson

Got the news this morning
It would be a tough day
Someone's so much larger than life
Can't believe he could pass away
When it comes to country music he's the world
And it wouldn't be all it is without his word
And He won't ever be gone
His songs live on
A fugitive and a brand new man
Mama tried to understand
Left us a lifetime of songs
And He won't ever be gone
We were friends right from the start
And we shared some high times
I would sing some songs he wrote
And he would sing a few of my own
Music made us brothers 'til the end
Not a day goes by that I don't miss him
And He won't ever be gone
His songs live on
Ramblin' fever and the way I am
Blue collar blues for the working man
We'll be singin it back home from now on
And He won't ever be gone
And He won't ever be gone
His songs live on
A fugitive and a brand new man
Mama tried to understand
Left us a lifetime of songs
And He won't ever be gone
We'll be singin it back home from now on
And He won't ever be gone
