

Superhero (feat. Chris Linton)

Unknown Brain

Like you, be strong, to hold the power of the sun
To dream, believe, in strength now I'm the only one, only one
I was an ordinary boy
Until I broke the rules, my life destroyed, my life destroyed
Until I woke awake, scream my mind I shout the ground shakes
How much can take? My mind will break
Will it break?
What can I take?
Can I be your superhero?
Superhero Can I be your superhero?
Superhero, superhero, superhero
Fly up, away, it's the first time of today, today
To dream, believe, you are the strength, you're all i need, need, need
Oh, gonna give it a shot, only one of me, to shoot you off from the enemy
Your superhero
Your superhero
