

Mouthful of Poison

Kittie

Blood spilled
Heart-felt
Head filled
Play dead

Consider yourself
Now, my friend
Enemy number one, you are bound
And gagged
Sacred circle, broken trust, now the plague
Has been cast
In your town
Acid tongue venom word
Why bother to lie?
Leave the lamp behind

[Chorus]
Your mouth full of
Your mouth full of lead and lies

Don't walk into fire
You might find
That you'll get burned
What a find
Dirty face
Guilt at last
Is this a lesson that's learned? Can you hear
Your own blood
In your veins
Calling out
Your demise?
Silence
Word to the wise

[Chorus]
I can't hear you scream
Drowning so it seems

Your mouth is full of poison

Why won't she
Say it to my face
