

# Down On Life (London Future Remix)

## Elliphant

[Produced/Remixed by London Future]

[Verse 1]

We are waking up in a pile of shit  
The whole bed is full of it  
And eggs keep growing out of our ears  
But we keep swimming in this wide oceans of salty tears

[Hook]

I could use a brake, me need to go down down down down on life  
I need you to take all my shadows for a walk tonight  
I could use a brake, me need to go down down down down on life  
I need you to take all my shadows for a walk tonight

[Verse 2]

Down the central of your sensual sense  
Freak more freaks now while I got the chance  
But cheap some cool dogs, don't waste it all  
The day is soon to come, when you're gone  
Need it y'all  
I say

[Hook]

[Verse 3]

Like leaves  
The days are falling out of my mind  
The breeze carry for a while but  
They will fall to the ground  
These days, life is a calling  
Life not waiting, life is running away  
But long after you're gone, your tears will still be answered  
If you here now you be apart forever

[Hook]
