

# A Dream

## Wyze Mindz

[Interlude: 1]

What is the value of truth Master? This is hard for me to understand  
So is truth

But should I not always speak the truth, no matter what the consequences?  
Recognize that all words are part false and part true, limited by our imperfect understanding  
But strive always for honesty within yourself

[Interlude: 2]

Let me tell ya something you already know. The world ain't all sunshine and rainbows  
It's a very mean and nasty place and I don't care how tough you are  
It will beat you to your knees and keep you there permanently if you let it  
You, me, nobody is gonna hit harder than life, but it ain't about how hard you hit  
It's about how hard you can get hit and keep moving forward  
How much you can take and keep moving forward, that's how winning is done  
Now if you know what you're worth then go out and get what you're worth  
But you have to willing to take the hits and not point fingers saying you ain't what you want to  
be  
Because of him or her or anybody. Cowards do that and that ain't you  
You're better than that

[Verse: 1] (Apacalypze)

Nightmares and cold sweats resembles a close death  
I woke from a dream, now I feel like I'm suspect  
Past life events want to puzzle my intellect  
It came back to haunt you with a penalties reflect  
My dream world posses wings, I'm lifting objects  
Don't know exactly the means, I guess it's projects  
Resurrect back with a vessel that couldn't die yet  
Martin Luther King had a dream, I know his progress  
A new president behind forcefields or arcitech  
This time gas and oil is never a subject  
But government's wicked, I diatech  
Cause god bless me with a vision to overrule the nonsense  
The dream is my heart with heavy motion with no ledge  
It seems it's a start, there's no beginning, there's no sketch  
I wake up, Mayflower shipwreck, a reject  
Amercia the land of the free, they lied, I double checked

[Interlude: 3]

Follow your prupose. This is what will defeat it all. If you're on your purpose

Even death respects purpose. That's why I'm here, because I'm on my purpose  
You don't think they hear me every day? But you know what?  
They can't do nothing to a person that stands with the truth

[Verse: 2]

I live in a place where the homeless stay next door to the rich folk  
And Death still walks by my side holding the pitchfork  
Maybe I'm just losing my mind or see it clearly  
Maybe I reveal all the lies but y'all don't hear me  
Where broken dream are used like concrete to pave the roads  
We are stuck inside a hellhole, money's got control  
I fear for the future, only reason cause we losin'  
We abusin' what was given, made the world an institution  
The corpartions inslave us untill robots replace us  
And I feel so much anger that's been with me through the ages  
Time to face us like grown men, don't hide behind your podium  
Don't worry about what mode I'm in, feelings I never hold em in  
Cats seem to be noticing, don't matter what you rollin' in  
It matters about your soul on the inside, just focus in  
Hip-Hop turned to fraud actors, askin what's my roll again?  
So we're here to keep it raw and make it all dope again.....what?

[Interlude: 4]

Alot of people because they're impatient and want things right now  
They allow their dreams to die in rejection  
They allow their dreams to die in bankrupsy  
They allow their dreams to die in negitive conversations  
They allow their dreams to die in excuses  
They allow their dreams to die inside of them because...  
Their not patient...They don't trust...They don't believe  
Beliefe and trust gives you patientce

[Interlude: 5]

Never have the nations of the world had so much to loose, or so much to gain  
Together we shale save our planet, or together we shale parish in it's flames  
Save it we can, Save it we must. And then shale we earn  
The eternel thanks of mankind, and it's peacemakers  
The eternel blessing of God
