

Get Ugly (feat. Georgia Anne Muldrow)

DUCKWRTH

Hold on
What you talkin' 'bout?
Wait a minute
Oh no, no no, oh no, no no, oh no, no no, hold on
Oh no, no no, oh no, no no, what you talkin' 'bout? Girl
I think you're beautiful baby, now don't you agree?
I know this ain't pretty but there's someone out there for me
Now keep this a secret, I know that you got mysteries
But I want you blindfolded and handcuffed into the damn seats
What a freak, freak in me
Why don't you see what we can be
Mink on the pillows, mink on the sheets
[?] from the back until we get into the sink
The only color I wanna see is pink
The only color I wanna see is pink
And baby if you try we can do that nasty freaky gushy stuff
You know them other girls ain't good enough
And you know them other girls ain't hood enough
I wanna tug on your cornrows, tug on your braids
And I shaved my side, you can rub on my face
So fuck the whole world, we can do this for days
Biting and choking like this Shades Of Grey
And when we are done we try to go away
Trapped in our world, we decided to stay
Let's do something we haven't done before
There's a whole world we have yet to explore
Let's get ugly
Let's get ugly
Let's get
So ugly, so ugly
So ugly, so ugly Let's try to remedy the pain and heartache we face from a world insane
Nose is [?], lips is too fat
Stroke the vulva, I'll cum, true fact
They can't handle it, I can handle it
To build up a fam would you help [?]
Grass gettin' scandalous from the manless
Binding us in this bed
Tie me up and buy me
Protect me from the slave of man
He's up in my mind you see
Trying to do the best he can
Just throw me on the bed and remind me

Of all of the things I am
Let's do something we haven't done before
There's a whole world we have yet to explore
Let's get ugly
Let's get ugly
Let's get I need it, I want it
I gotta have it, now go'n, give it to me
I need it, I want it
I gotta have it, now go'n, give it to me
I need it, I want it
I gotta have it, now go'n, give it to me
I need it, I want it
I gotta have it, now go'n, give it to me
