Starkey

[Intro: Merky ACE]

Yo, know who it is

Merky ACE

Big up Kozzie

Big up Starkey

Big up Magic and all the NoHatsNoHoods family

Yo, yo

[Verse 1: Merky ACE]

Who's Merky? Lended off MC, dirty

When I come around, damage

So many bars, soundboys can't manage

Push haters into a train carriage

Silly hoes wanna tell me about marriage

I'm a flirter, but I don't know Van Damage

Anybody wanna war? I'll let 'em have it

Aim for the face with the ting and bang it

Family Tree, the best crew on the planet

Murdered the game and we did not plan it

Ask Starkey for the beat on Twitter

Bet you ten bags he won't let you have it

Keep on sending up on Grime Daily

Turn your potato head to a jacket

Put buff girls in doggy, then slam it

No eye contact, deepest stabbage

[Chorus: Merky ACE]

Grime's not hard, fam, it's all easy

Working hard, merking easy

Talking about you've got a big MAC?

Stop typing lies on your PC

Grime's not hard, fam, it's all easy

Working hard, merking easy

Talking about you've got a big MAC?

Stop typing lies on your PC

[Verse 2: Kozzie]

Yo, man of the moment

Man's hot but I won't get lost in the moment

Got so many flows and I'm gassed to show them

Gas mark nine when I'm in the dance evolving
It's me, it's Koz, yeah, I'm boasting
I know you'd love to be where I am right now
Spartan's a banger, look at me right now
In the Premier with the ballers right now
Right now, right now, right now
[?] next time you'll find out
Black gloves on with a mask, ride out
I'll go blind with a MAC, wile out
Bang, bang, bang, everybody best lie down
I'm the guy now, make you wile out
I'm the guy now, I've got my nine out
Hope you old school MCs don't die out

[Chorus: Merky ACE]

Grime's not hard, fam, it's all easy
Working hard, merking easy
Talking about you've got a big MAC?
Stop typing lies on your PC
Grime's not hard, fam, it's all easy
Working hard, merking easy
Talking about you've got a big MAC?
Stop typing lies on your PC

[Bridge]

You're working so hard
You're working so
You're working so hard
You're working so
You're working so hard
You're working so
You're working so hard
You're working so

[Verse 3: Merky ACE]

Squeeze two shots then mek a man burn
Yeah, I spit greaze and I do not care
Put in too much work last month
Back on the roads, gonna get that in
Family Tree, we're the best in the world
If it ain't Koz then I don't give a shit
Put it on mute cause I don't wanna hear
What have you done for the scene this week?
Peak
You can hold a hot one straight in your cheek
Get your headtop wrapped up just like a Sikh
You can come through on your gassed up hype
Saying that you are not scared in beef
Standard, normal, you will get eat

It's not a ting, Ego will beat
Corn in your head, put man to sleep

[Chorus: Merky ACE]

Grime's not hard, fam, it's all easy
Working hard, merking easy
Talking about you've got a big MAC?
Stop typing lies on your PC
Grime's not hard, fam, it's all easy
Working hard, merking easy
Talking about you've got a big MAC?
Stop typing lies on your PC

[Bridge]

You're working so hard
You're working so
You're working so hard
You're working so
You're working so hard
You're working so
You're working so hard
You're working so
