

Into the Night

Carousel

She's looking back over her shoulder
I'll be back in a minute he told her
Baby we're ok
We're gonna be ok
And when he gets back in the car
He said he shot the man behind the bar
But baby we're ok
We're gonna be ok
Just look in my eyes, you'll be alright
We can just drive
I'm right by your side, we'll be alright
We can just drive
Into the night
Into the night
She says baby did you get what you came for
He says yeah and I got plenty more
Baby we're ok
We're gonna be ok
All these moments passin by
But something isn't feeling right
Are we ok
Are we ok
Just look in my eyes, you'll be alright
We can just drive
I'm right by your side, we'll be alright
We can just drive
Into the night
Into the night
Just look in my eyes, you'll be alright
We can just drive
I'm right by your side, we'll be alright
We can just drive
Into the night
Into the night
