

Otherside (feat. Reva DeVito & Golden Vessel)

Young Franco

All my life I have been searching for myself
I needed answers, but you won't give me none
I don't pilot, just ain't flying anymore
I'll be the captain when all is said and done

You know you gotta let your guard down

Don't you fight it

You know what you gotta do

Just stay the course into a dark night

You'll come out on the other side

You'll come out on the other side

Back and forth, you were just looking for a sign

Now can you see it? If you been going blind

Somewhere late you're standing on the edge of

Jump in, but you can't do and dive

You know you gotta let your guard down

Don't you fight it

You know what you gotta do

Just stay the course into a dark night

You'll come out on the other side

Baby, I can't fight, as though

I'll take it as a sign

Life is like a rollercoaster

Just enjoy the ride

Say that I've been working

Not gonna be no 9 to 5

You know I got it

You know I got it

Where you wanna be?

That's where we go

What you wanna see?

Come let me know

Just don't be a no show

It's just us, we care from the other day

You don't need to stare, come down, sit here

[?]

'Cause I always said even when I care

Hit you up instead, even when I'm lying just beside the shelf

Even though we're gone, let's creep outside

[?]

Let your guard down

Don't you fight it

You know what you gotta do

Just stay the course into a dark night

You'll come out on the other side
