

# Paint Your Face

## Slimy

I'm fine I know you're fine too  
In fact I know your whole life  
Because you act like a no life, your past friend is your Mac  
My friends know your past and they know your ex girlfriends  
But just stop and sign out it's an emergency '  
You think you're a stranger but my friends know, so I know  
And what I know is that I know  
So you think you're a stranger but my friend know so I know and what I know is that I know  
but you don't know

I search a new place with some of my friends  
And I see you there! Do you really want to stay here?  
You look so afraid, you look so mad now  
You must paint your face cause' you show your... on MySpace

I'm tired of guys like you, you're just a waste of time  
Go and talk with another bastard you're not friend of mine  
We know all your habits, we know where you've been

You're a virtual model  
It's an emergency

You think you're a stranger but my friends know, so I know  
And what I know is that I know  
So you think you're a stranger but my friend know so I know and what I know is that I know  
but you don't know

I search a new place with some of my friends  
And I see you there! Do you really want to stay here?  
You look so afraid, you look so mad now  
You must paint your face cause' you show your... on MySpace

You must paint your face (x3)  
You must, you must, you must paint your face  
You must paint your face (x2)  
You must, you must, you must paint your face  
You must paint your face (x2)  
You must, you must, you must paint your face  
You must paint your face (x2)  
You must, you must, you must paint your face

You must paint your face (x2)  
You must, you must, you must paint your face

I search a new place with some of my friends  
And I see you there! Do you really want to stay here?  
You look so afraid, you look so mad now  
You must paint your face cause' you show your... on MySpace

I search a new place with some of my friends  
And I see you there! Do you really want to stay here?  
You look so afraid, you look so mad now  
You must paint your face cause' you show your... on MySpace
