

# Never Give a Fxck

## Rob Bailey & The Hustle Standard

I did the 9-5  
I did the 401k  
All that great shit  
And I started doing life, we had a house, we had a dog  
We had all the things that youre supposed to do, and then we were just  
Doing life  
And like as we were doing it, I always thought this feels f\*cking stupid

Bullsh!t and I go way back  
Life's a b!tch so this is payback  
And no f\*cks given I can say that  
All the time I pray for that  
Stop fucking around you better save that  
Better save that  
I bottled lightning, bagged thunder  
Hustle Standard is the 8th wonder  
So it's no wonder I came back  
Never gone, take that  
Mother f\*cker I said, take that  
Who say they saw this mother f\*cker slow down

I don't want a single person where I have to look at and be like...  
I wanna do this can I do this, f\*ck you I do what I want

I don't care if you like me, ride or die with my crew  
I do what I want, I got nothing to prove  
I love this shit (3x)  
Nothing to prove  
And I'll never give a f\*ck (2x)

Lock me up and I'll show you a fool  
That's the truth  
Show me a leash and I'll break all the rules  
Cuz permission is wishin' that b!tches would listen  
Though my mission is killin  
I kill everything, my mental is vicious  
So vicious  
I do what I want, never give a f\*ck  
This verse is my hit list  
Middle fingers in the f\*cking air if you're with this

Can I get a f\*cking witness

I love this shit (3x)  
Nothing to prove  
And I'll never give a f\*ck (2x)

Live fast never die  
I'm livin' like I'll never die  
Live fast never die  
I'm livin' like I'll never die  
Live fast never die  
I'm livin' like I'll never die  
Live fast never die  
I'm livin' like I'll never die

And I'll never give a f\*ck (3x)  
Never touch the brakes  
Pedal down, let's go  
And I'll never give a f\*ck  
Stack it up high  
Face it straight, let's go  
And I'll never give a f\*ck  
Never touch the brakes  
Pedal down, let's go  
And I'll never give a f\*ck  
Stack it up high  
Face it straight, let's go
