

In The Music

Trashcan Sinatras

Naked to the world I came
Naked I will leave
Shadow fall behind me
Sunlight up ahead
I fill the in between

Naked to your love I climb
Naked I succeed
You hold me in your arms
I'll hold you in mine
We'll fill the in between

With the music
That we make in love
In the music
We rise above

We get lost
We get powerful
We know what to do now
We get down
And in every way
I'm always making love with you

Let's make it 'til the end of time
Let's make it all we need
Let the music fill our lives
And in each other's eyes
Find everything we need

In the music
That we make in love
In the music
We rise above

And now I'm naked to the flame
Curled into you
And naked I believe

Let the timeless everything

That we make naked
Melt into the harmony of love

In the music
That we make in love
In the music

In the rhythm rising up
In the rhythm rising up
We rise above
We rise above
