

# Sucker

## New Found Glory

You're more than tongue tied this time  
Well I can feel it in your lips  
Nobody told me you were a sucker for a kiss  
Music low  
We're all alone  
Being wrong never felt so right  
Tell me about your first kiss  
Tell me or have you already forgotten it  
Tell me about your first kiss  
What do I have to do to get through all of this?  
I'm writing it down  
I bet you thought this song was about you  
You're more than just mad this time  
You've got that look in your eye  
Nobody told me you were a sucker for a kiss  
Music low  
We're all alone  
Being wrong never felt so right  
Tell me about your first kiss  
Tell me or have you already forgotten it?  
Tell me about your first kiss  
What do I have to do to get through all of this?  
I'm writing it down  
And just leave me here  
and tell me to my face what you think about.  
Can we figure out  
what happened to our happy ending anyway?  
How you feel about  
Leaving me here  
With a lot more left to say  
Music low  
We're all alone  
Being wrong never left so right  
Tell me about your first kiss  
Tell me or have you already forgotten it?  
Tell me about your first kiss  
What do I have to do to get though all of this?  
I'm writing it down  
I bet you thought this song was about you  
I bet you thought this song was about you
