

Just a Samba

Bossacucanova

Um, dois
Um, dois, tres eh
So
Its just a swing
Made for arms, and legs, hips about the sing
Is like when we fell in love and gave a new romance another chance
It fills my heart with something always new
It's just a samba, that I wrote alone at night thinking of you
Any fool can easily, discover how to dance in a transe
Facinating away you can't refuse
There is no melody to tell the way i feel
It's just a little samba that reminds me wonderful things (2x)
