[Verse 2: Chip]

London's always cold, thats not my Settings  
Trinidad lets go, lets switch the Settings  
Niggas preein' snaps, they preein' settings  
Girls don't like your crew, you're too depressing  
Chippy's back and flexing, they did not expect this

I've been doing settings, you look so upsetting  
Searching for new melodies, cut off all my frenemies  
Found out half these niggas weren't as real as they pretend to be  
Just tryna get this money with my bredrins  
You switch up over p's thats not my settings no  
Them man put the pre in pretending  
A bag of man and no gyal thats not my Settings no
