

# Now or Never

## Orianthi

Drivin' down this high way  
I've got no where to go  
There's no one were that know me  
No messages on my phone

'Cause I've got my guitar on the back seat  
That why I'm slowing down this road  
There's nothing more that I need  
Why do I feel alone

'Cause I'll be alright all I need is a sign  
It's a long road  
But I'm hoping things would just get better  
Well I need to find  
Where everything on the line  
I got to make a change  
It's now or never

I'm moving at my own phase  
No chance of slowing down  
To get to where I'm going  
There no time to way around  
Alright

'Cause I'll be alright all I need is a sign  
It's a long road  
But I'm hoping things would just get better  
Well I need to find  
Where everything on the line  
I got to make a change  
It's now or never

I can't look a back  
At what could have been  
You just got to keep on moving on  
You can't think about  
What should have been  
It doesn't break you  
Makes you stronger in the end  
I know

Well I know  
Yeah...  
Well I know

'Cause I'll be alright all I need is a sign  
It's a long road  
But I'm hoping things would just get better  
Well I need to find  
Where everything on the line  
I got to make a change  
It's now or never

'Cause I'll be alright all I need is a sign  
It's a long road  
But I'm hoping things would just get better  
Well I need to find  
Where everything on the line  
I got to make a change  
It's now or never

'Cause I'll be alright all I need is a sign  
It's a long road  
But I'm hoping things would just get better  
Well I need to find  
Where everything on the line  
I got to make a change  
It's now or never
