

# STARGAZING

Travis Scott

Rollin', rollin', rollin', got me stargazin' (yeah)  
Sippin' on purp, feelin' like the Barre Baby (it's lit)  
Whenever I'm down, it got me goin' crazy (yah)  
Psychedelics got me goin' crazy (alright) I was always high up on the lean (yeah, yeah)  
Then this girl came here to save my life  
Look up to the sky, down on my knees (straight up)  
Out of nowhere, you came here to stay the night  
In the night-time (woo, yah)  
Rollin', rollin', rollin', got me stargazin' (roll)  
Psychedelics got me goin' crazy (oh, no)  
Niggas femalin', they excellin' (yeah)  
Are they intelli'? (what you tellin'?)  
We propellin', up top with Ellen, uh (with the choppers)  
Kill the jealous, with propane repellent  
Got me goin' crazy (it's lit)  
On tour, we'll tell 'em, we brought the section (gang)  
They keep on callin' up, it's gettin' hectic, like we projected  
So we cut the plug, he's interjected (got me goin' crazy) Rollin', rollin', rollin', got me stargazin'  
(yeah)  
Sippin' on purp, feelin' like the Barre Baby (it's lit)  
Whenever I'm down, it got me goin' crazy (yah)  
Psychedelics got me goin' crazy (alright)  
I was always high up on the lean (yeah, yeah)  
Then this girl came here to save my life  
Look up to the sky, down on my knees (straight up)  
Out of nowhere, you came here to stay the night  
In the night-time (woo, yah) Got me goin' crazy Okay, I been up for some days, I ain't got time  
to lay  
Just to drown out all these thoughts, I tried all kind of things  
If I take you to my past you will be traumatized  
Got a thousand kids outside that's tryna come alive  
'99, took AstroWorld, it had to relocate  
Told the dogs I'd bring it back, it was a seal of faith  
Before no carnivals, baby girl, she played the tourist guide  
Got the keys into my city, now she know the rides  
Got new money, got new problems, got new enemies  
When you make it to the top, it's the amenities  
Packin' out Toyota like I'm in the lead  
And it ain't a mosh pit if ain't no injuries  
I got 'em stage divin' out the nose bleeds  
And she hit that booger sugar 'til her nose bleed  
Bounce that shit forever, she on both knees

She was talkin' 'bout forever got a whole week  
But she know my baby mama is a trophy  
She be throwin' up them B's feel like we both bleed  
She keep my dick jumpin' up, I feel like I'm Moby  
I'm way too gold for this beef, feel like I'm Kobe, yeah  
This right here is astronomical  
I see you picked up all my ways, I feel responsible  
They tryna say that all my problems is improbable  
They keep itchin' at my spit, I'm diabolical  
You feel me?
